This Certificate of Compliance indicates that representative samples of the product described in the certification  
report have met the requirements for UL certification. It does not provide authorization to apply the UL  
Recognized Component Mark. Only the Authorization Page that references the Follow-Up Services Procedure  
for ongoing surveillance provides authorization to apply the UL Mark.

Only those products bearing the UL Recognized Component Mark should be considered as being UL Certified  
and covered under UL's Follow-Up Services.

Look for the UL Recognized Component Mark on the product.
